What You Get

Every team member who earns a PMP® certification must actively maintain their certification through participation in the continuing certification requirements (CCR) program, and renewal of their certification every 3 years. Participating in professional development and learning activities allows certification holders to earn Professional Development Units (PDUs), fulfilling the CCR and ultimately growing and developing as a professional. These PDUs can be earned through StormWind's Professional Project Management courses.

PMI Talent Triangle

Leadership and business intelligence skills are imperative to support long-range strategic objectives that contribute to success. The ideal skill set is a combination of technical, leadership, and strategic and business management competency—known as the [PMI Talent Triangle™](#).

In order to fulfill the CCR, PMP's must attain a minimum of 8 PDU in each of the skill areas, and a total of 30 PDU, during the 3-year certification term.

Our Project Management Bundle was created to help your team to do this. The Project Management Bundle includes the following professional development courses:

- Project Management Professional (PMP®) Official Exam Prep (35 contact hours)
- PMI Agile Certified Practitioner (PMI-ACP) (21 contact hours)
- Technical Courses:
 - Project Fundamentals for the Accidental Project Manager (8 Technical PDU)
 - CompTIA Project+ (PKO-004) (16 PDU)
 - Practical Project Management with Microsoft Project (8.5 PDU)
